Submitted with a draft forwarding copies of the notice to (1) Director of Industries and Commerce (2) Government Director, Industrial Concerns KK (3) Director of Agriculture (4) Chairman Bhadravati Iron Works. (5) The Agent, Mysore.

CHIEF SECRETARY
1. APR. 19
GOVT. OF MYSORE.

11/4

No. 469-63/E1 dt 2.4.40

DEPARTMENT OF SUPPLY.

NOTICE.

RATIONING OF IMPORTED STEEL.

The Ministry of Supply in the United Kingdom has found it necessary to restrict the export to India of steel in the following forms:-

(a) Steel plates, rails, sections (all shapes), bars (including bright bars) and flats.

(b) Hoop and strip (including cold rolled strip).

(c) Steel sheets (coated and uncoated).

(d) Tin plates (including black Tern and silver finished plates).

(e) Steel sheet.

(f) Alloy and special steels, forgings, castings and pressings.

(g) Steel tubes, pipes and fittings.

(h) Steel bolts, nuts, rivets, washers, screws and studs.

(i) Steel wire, rivets, wire for some wire products.

The total quantity under these heads which may be exported to India during the year 1940 has been agreed to and separate quotas have been laid down for Burma and Ceylon.

For General information it may be noted that the rationing scheme quota for India does not involve a serious reduction of normal imports, and no undue hardships are at present anticipated.

In these circumstances, the Ministry of Supply in England will be unable to accept any further demands from India for the export of steel from the United Kingdom falling under the heads specified, unless supported by a Recommendation

Certificate issued by the War Supply Board of India.

The quota for India is to cover demands originating from the Defence Services, Railways, all Central and Provincial Government Departments and the Indian States as well as from all branches of Industry. The quota year will be calculated from 1st January 1940 and all steel under the specified heads exported from the United Kingdom from that date will be debited against the quota for 1940.

Arrangements will be made with the Ministry of Supply within the limitations of the quota for compliance with orders already placed or pending, having due regard to their relative importance.

Detailed instructions will be obtainable from the Department of Supply on and after the 1st April 1940 to cover:-

(a) Applications for the grant of quota recommendation certificates.

(b) Action to be taken by Firms who have orders placed in, and/or demands pending on, the United Kingdom.

Applications for further information and for the forms to be utilised for this purpose, should be addressed to the Supply Department with a superscription in the top left-hand corner - "Steel quota instructions".

NOTICE.

RATIONING OF IMPORTED STEEL.

In amplification of the notice which has recently appeared in the Press concerning the restriction of export from the United Kingdom to India of certain classes of steel, it is now announced that the complete list of the various classes of steel to be subject to quota control will be as under :-

(a) Ingots, billets, blooms, and slabs.

(b) Plates, medium plates, angles, channels, tees, joists, piling sections, other sectional material, rounds, rods, squares, hexagons, flats, other sections and shapes (and whether black or bright) rails, sleepers, fishplates, soleplates.

(c) Sheets, coated and uncoated, less than 3 mm. thick including galvanized, lead-coated and cellactite sheets.

(d) Tinplates, terne plates, black plates, silver finished plates.

(e) Shell steel.

(f) Steel tubes and pipes (including imported hollows)

(g) Hoops, strip (whether coated or uncoated and whether hot or cold rolled).

(h) Tyres, axles, wheels.

(i) Steel castings, forgings, stampings.

(j) Colliery arches, and accessories therefor, pit props.

(k) Steel bolts, nuts, studs, washers, rivets and screws.

(l) Railway springs (whether laminated or coiled).

(m) Wire rods, coated or uncoated, wire, whether plain or barbed, wire rope, wire strand, wire netting, wire chain link fencing, wire mesh, wire nails, excluding boot and shoe grindery, wire staple, excluding machine staple.

2. Detailed instructions regarding applications for the grant of Quota Recommendation Certificates and the procedure to be followed can be obtained from :-

GOVERNMENT OF INDIA.

DEPARTMENT OF SUPPLY.

Simla, the 11th July, 1940.

To

THE CHIEF SECRETARIES TO ALL PROVINCIAL GOVERNMENTS.

ALL CHIEF COMMISSIONERS.

SIR,

I am directed to state that with the steadily increasing demands for steel for all classes of work and the shortage of steel available for import from the United Kingdom it becomes increasingly important to ensure the most economical use of available supplies.

2. The adoption of a ferro concrete design is one means whereby economy in steel can be achieved and provided general conditions make a building of this type suitable, it is desirable that this alternative should be borne in mind when demands for new buildings are being made. Not only will the adoption of this type of construction reduce the quantity of steel required but the supply of reinforcing concrete bar can be more easily arranged than the structural sections normally required for a building of fabricated steel.

3. It is requested that this matter may be brought to the notice of all the authorities concerned.

I am,

SIR,

Your obedient servant,

J. A. MACKEOWN,
Deputy Secretary to the Government of India.

A copy of the above is forwarded to :—

No.E/13159.
Government of India,
Department of Supply,
Calcutta, the 29th August, 1940.

MEMORANDUM.

Subject:- Economy in the use of steel.

An economy drive in the use of steel is essential in view of the increased quantities being used for War purposes. It is therefore requested that immediate steps should be taken to conserve to the utmost the use of steel.

2. New buildings should not be undertaken, and extensions to existing buildings should not be made unless it is proved that such work is essential to the prosecution of the War. Where it is absolutely essential and steel has to be used, sections at present utilized should be carefully examined so that, if possible, reductions in sizes may be effected. Similarly, a reduction in the scrapping sizes of certain components should be considered with a view to obtaining longer life.

Manufacture of rolled steel sections.

SIR,

I am directed to forward a copy of Government of India, Department of Supply Memorandum No.EMT/13545/2385/WW, dated the 24th October 1940 and to request that the facts contained therein may kindly be given publicity amongst the trading and engineering concerns interested in the subject.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

VN

No. EMT/13545/2385/MM.
GOVERNMENT OF INDIA.
DEPARTMENT OF SUPPLY,
MUNITIONS PRODUCTION BRANCH,
6, Esplanade East,
Calcutta, the 24th October 1940.

OFFICE MEMORANDUM

The undersigned is directed to say that an examination of the rolling lists of Messrs. Tata Iron & Steel Co. Ltd. and of the Steel Corporation of Bengal has revealed that a large number of sections is at present being rolled for which there is not much demand and the rolling of which could be discontinued without detriment to fabricators. Moreover, the rolling of such a large number of sections results in considerable reduction in all round deliveries of structurals from the mills. The lists of both Messrs. Tata Iron & Steel Co. and the Steel Corporation of Bengal have been revised in consultation with them and the Structural Engineering Panel of the Indian Engineering Association. A copy of a fresh list embracing the sections for which there is the greatest demand and which alone will in future be rolled is enclosed herewith. The rolling of other sections in the normal lists, which are not included in the enclosed list, will not ordinarily be taken in hand unless the demand is for a total of at least 200 tons.

S R Zaman

Deputy Secretary to the Government of India.

The reply to this communication should be addressed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

No. F.17-40/W.

Pol 1138

W.4-40-9

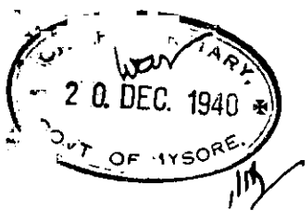
FROM

THE SECRETARY TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Chief Secretary to the Government of

His Highness the Maharaja of Mysore, Bangalore.



Dated Bangalore, the 20th December *1940.*

Diversion of Indian demands of finished steel products from the United Kingdom to the United States of America.

SIR,

I am directed to refer to letter from this Residency No.F.17-40/W, dated the 16th July 1940 and to forward, for information, 10 copies of the papers noted in the margin.*

1.	Office Memorandum from the Department of Supply No.EQT/12899/7272/JRW, dated the 28th November 1940.	C
2.	-do- No.EQT/12899/7876/JRW, dated the 4th December 1940.	
3.	-do- No.EQT/12899/8077/MS, dated the 7th December 1940.	

2. I am to add that the Ministry of Supply in the United Kingdom have certain contracts with American steel interests and that His Majesty's Government have offered to allow those Indian indentors, who place their orders through the British Purchasing Commission, to take advantage of these contracts, which are at favourable rates. The Government of India have, therefore, set up a purchasing organisation under their Steel Controller to handle indents from Government Departments and Railways, and from other private firms which wish to take advantage of the services of the British Purchasing Commission, and of the contracts placed by the Ministry of Supply in America.

3. His Excellency the Crown Representative desires to bring to the notice of Indian States that should any of them find that owing to the inability of the United Kingdom to accept further orders

orders they have to place their orders on the United States of America, they may find it convenient to use through the Political Department the services of the Steel Controller to the Government of India in order to enable them to participate in the contracts placed by the Ministry of Supply with American Steel interests.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

Government of India.

Department of Supply.

DIRECTOR GENERAL, MUNITIONS PRODUCTION.

6, Esplanade East,

Calcutta, the 28th November 1940.

OFFICE MEMORANDUM.

Sub: Diversion of Indian demands of finished steel products from the United Kingdom to the United States of America.

In continuation of this Department Memorandum No. 12241, dated the 9th April 1940, regarding the Introduction of the Quota System for steel imported from the United Kingdom, the undersigned is directed to state that the Government of India have decided, in consultation with His Majesty's Government, that, with effect from the 1st January 1941, Indian demands for imported steel included in the Quota will be diverted from the United Kingdom to the United States of America, and all orders placed will be met from the steel which has already been contracted for on behalf of the Ministry of Supply in the United Kingdom.

2. The Steel Controller to the Government of India, Department of Supply, 6, Esplanade East, Calcutta, will receive and deal with all indents from Government Departments and Railways. It is, therefore, requested that all Departments should send to this officer such indents which they may have to place on or after the 21st December 1940, for the following materials :-

(a) Ingots, Billets, Blooms and slabs.
(b) Plates, medium plates, angles, channels, tees, joists, piling sections, other sectional material, rounds, rods, squares, hexagons, flats, other sections and shapes (and whether black or bright) rails, sleepers, fish-plates, soleplates, High Speed, Tool and Alloy steels.
(c) Sheets, coated and uncoated, less than 3 mm. including galvanized, leadcoated and collectite sheets.
(d) Tinplates, terne plates, black plates, silver finished plates.
(e) Shell Steel.
(f) Steel tubes and pipes (including imported hollows).
(g) Hoops (other than those required for baling cotton), strip (whether coated or uncoated and whether hot or cold rolled).
(h) Tyres, axles, wheels.
(i) Steel castings.
(j) Colliery arches, and accessories therefor, pit props.
(k) Steel bolts, nuts, studs, washers and rivets.
(l) Railway springs (whether laminated or coiled).
(m) Wire rods coated or uncoated, wire, whether plain or barbed, wire rope, wire strand, wire netting, wire chain link fencing, wire mesh, wire nails, wire staple (excluding machine staple), and expanded metal.

3. India's requirements for the following classes of steel will, however, continue to be met from the United Kingdom and a Quota Recommendation Certificate for their import will be necessary as heretofore.

(a) Cotton Baling Hoops.
(b) Steel forgings, stampings.

(c) ----------

(c) Iron Wood Screws.
(d) Boot and Shoe Grindery.
(e) Any special steel, e.g. V.B. Gun Steel, which cannot be obtained from the United States of America.

4. Further details in connection with the scheme will be forwarded in due course.

DIRECTOR GENERAL MUNITIONS PRODUCTION,
6, Esplanade East,
Calcutta, the 4th December, 1940.

OFFICE MEMORANDUM.

Subject:- Diversion of Indian demands of finished steel products from the United Kingdom to the United States of America.

In continuation of this Department memorandum No. EQT/12899/7272/JRW, dated the 28th November 1940, the undersigned is directed to state that the Government of India have been advised by the Secretary of State for India that, in anticipation of the diversion of Indian demands to the United States of America, the issue of Quota Recommendation Certificates should be immediately suspended for all the classes of steel except those mentioned in para 3 of the memorandum under reference.

2. With effect from the 4th December 1940, no Quota Recommendation Certificates will be issued by this Department for the classes of steel mentioned in para 2 of the memorandum referred to above. This, however, does not preclude granting of Quota Recommendation Certificates for any emergency order, e.g., for Defence Services.

3. Further details of the Scheme for the purchase of steel from the United States of America will follow shortly.

15

Sir

Copy of Office Memorandum No. EGT/12899/15 dated Calcutta, the 7th December 1940 from the Government of India Department of Supply, Director General, Munitions Production to all Departments of the Government of India, etc.

Diversion of Indian demands of finished steel products from the United Kingdom to the United States of America.

In continuation of this Department memorandum No. EGT/12899/7272/JR7 dated the 28th November 1940, the undersigned is directed to state that further information has recently been received from His Majesty's Government that the classes of steel which will continue to be obtained from the United Kingdom and orders for which should be supported by Quota Recommendation Certificates are the following:-

(a) Cotton baling hoops.
(b) Steel forgings, castings, stampings, buffers.
(c) Iron wood screws.
(d) Wheels, tyres, axles.
(e) Boot and shoe grindery.
(f) Any special steel, e.g., W.B. gun steel, which cannot be obtained from the U.S.A.

It is, therefore, requested that the items mentioned in para. 3 of the memorandum under reference may please be modified accordingly. This will also necessitate the following modification of the classes of steel demands for which will be diverted to the United States of America and indents for which should be submitted to the Steel Controller, Department of Supply &, Esplanade East, Calcutta:-

(a) Ingots, billets, blooms and slabs.
